

COHORT-BASED TRAINING

ADAPTIVE CHURCH LEADERSHIP COHORT

AN 18 MONTH HYBRID COHORT FOR CHURCH TEAMS

Our modern world is constantly in flux, but our congregations were designed for a more stable age. Gather with a team of six to learn the principles of adaptive leadership and implement strategic experiments that can reshape the culture within your church to more effectively be the church for a changing world.

THE ACLC INCLUDES:

- 1 Virtual and 2 In-Person Summits: Extended training time with thought leaders and peers
- Online content: To further your learning and share with your congregation
- Webinars: To interface with training and inspiration between summit gatherings
- Guided tools: To use locally for missional experimentation
- Team coaching: To support your church team in turning ideas into action

FEATURING TOD BOLSINGER

Vice president of Fuller Seminary and author of *Canoeing the Mountains*
